

Endorsement of the Transitional Life Care Program

How many years have we struggled trying to establish the dharma, trying to teach, trying to learn? This program, Transitional Life Care (TLC), is really trying to do that. It is for the Buddha, Dharma and Sangha; it is for the benefit of all beings. I think it's a good idea, help everybody open their eyes! We have been hanging out with our eyes closed for years, pretending we will never die. It's going to happen!

Therefore, we need to prepare, and if others are dying, we need to help them or at least know how to avoid harming. This is our opportunity to serve and gain merit to support our precious human rebirth. Help each other understand. It's time to stand up! If we know something, we need to share that with others. We don't retire until we are liberated.

This program is for the Three Jewels – it is wonderful. This idea is very good - many, many people will benefit in the times to come. I say, "Thank you." I'm happy to sign for this.
